# **Chrome River SNAP App for iPhone**

Chrome River's free SNAP app enables EXPENSE users to quickly and easily capture and upload receipt images right when the expense occurs. Users simply snap a photo of the receipt using the app and it will be uploaded directly to their Receipt Gallery and the Offline tab of the eWallet for use the next time they access Chrome River. SNAP may also be used to upload images taken with another app on the device.

- Photos taken with Chrome River SNAP are not stored in the device's default photo gallery, so they do not mix with personal photos.
- Users have the option to automatically delete photos from the device once they have been uploaded to the Receipt Gallery, freeing up storage space.
- If there are multiple receipts in one photo, the system will split them into separate transactions.
- Only JPG, PNG and HEIC/HEIF formats are supported.
- Files must be **less than 10 MB**. Additionally, the system will cancel any uploads that take more than 60 seconds. If this occurs, you will need to retry the upload when you are on a Wi-Fi or high-speed connection.

#### System Requirements

Chrome River SNAP is available for Apple iPhones running the latest iOS. The app is designed for narrow-screen mobile devices like iPhones; there is no iPad version of SNAP.

## **Upload a Photo with Chrome River SNAP**

1. Open Chrome River SNAP.

2. Hold your iPhone over the receipt and tap the gray circle at the bottom of the screen.

To turn the flash on, off or to Auto mode, tap the flash icon in the upper right corner.

3. If the receipt image is in frame and in focus, tap UPLOAD. Otherwise, tap DISCARD.

4. You will be returned to the camera view. To see the receipt as it is being prepared for upload, tap the receipt icon in the lower right corner.

If you have selected "Delete Receipts After Upload" in <u>Settings</u>, the receipt will only appear here until it has uploaded to Chrome River.

Otherwise, this screen is your Upload History, where you may see all the receipts you have previously uploaded.

5. If a connectivity issue causes the upload to fail, tap the image thumbnail or the word **RETRY** to re-send the receipt image.
